PROFILE

Motivated and collaborative Third-year Computer Science major with hands on experience in full project lifecycle development. Proven ability to lead agile teams, delegate tasks effectively, and utilize project management tools like Gantt charts to ensure on-time delivery of projects. Eager to apply strong problem solving and technical skills to a software engineering internship.

PROJECT

- Hexoust (Hex-Based Strategy Game) | Team of 3 (JAVA)
 - Project Lead: Orchestrated a 5-sprint development cycle, delegating tasks and balancing team workload for equitable contribution.
 - Project Management: Utilized Gantt charts to plan sprints, track progress, visualize deadlines, and ensure on-time delivery.
 - Problem Solving: Documented technical challenges and solutions, improving team efficiency and collaboration.
 - Outcome: Successfully delivered a fully functional game on schedule. (<https://frankyu17.github.io/CV/>)
